

# Church Roof Protection

Loxal can protect your valuable church roof with a high specification video verified CCTV alarm system.

Lead theft and break-ins at churches are common place. In addition there has been a significant rise in criminal activity around churches over the past 12 months.

# The Loxal wireless video alarm system is incredibly flexible and can be tailored exactly to your requirements.

- The Loxal alarm requires NO mains power and is completely wirefree
- An alarm activation will automatically send short video clips to our ARC (alarm receiving centre)
- Trained monitors assess the footage and instigate appropriate action
- With the help of the local Police and our alarm response network that operates via more than 750 locations nationwide, you are sure of a rapid response
- Detailed reports are issued for all alarm attendances
- Long term hire or purchase
- Insurance benefits with EIG & Trinitas
- Annual maintenance and servicing
- Flexible payment options
- All work guaranteed

Initial insurance compliant survey and risk assessment will be carried out by Loxal free of charge and with no obligation.

Loxal also work with DNA marking companies Selectamark and SmartWater to increase security, should this service be required.

Loxal are accredited with SSAIB Security and Alarm Inspection Board for installation of wireless alarms.

**Call 0800 9172994 to find out more and arrange a free survey.**

## How it works:

### Step 1: Detection

The system is activated if movement is picked up on the motion detector.

### Step 2: Recording

The triggered unit will record a 10 second clip of the cause of the activation.

### Step 3: Transmission

The 10 second video is sent wirelessly to our Alarm Video Monitoring Centre.

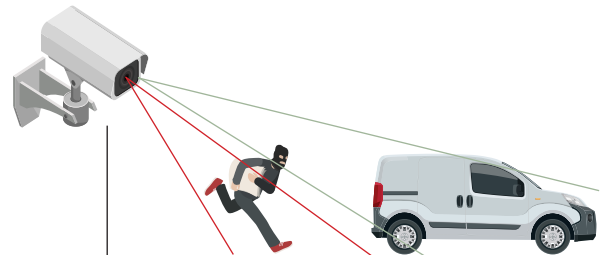

### Step 4: Assessment

Our licensed CCTV operators review the footage looking for the cause of activation.

### Step 5: Contact

If a positive identification is made, the police and the keyholder will be contacted.

Intruder thermal signature at 3 metres

Vehicle and intruder thermal signature at 12 metres
